ABOUT ASNMM

ASNMM is a non-profit professional organization that promotes education, quality, and standards for the profession of intraoperative neurophysiological monitoring

FOUNDED IN
1990

ASNMM Seeks to Advance the Following Goals:

- Develop and pursue standards of excellence in performance of patient care and clinical practice among all involved in neurophysiological monitoring.
- Provide quality educational offerings using the venues of meetings, webinars, on-line modules and other means supported by current or future technologies in order to promote high quality patient care.
- Develop the knowledge base that defines, supports and enhances the practice of intraoperative neurophysiological monitoring.
- Create a point of access that allows mutual support and information sharing in the field of IONM.
- Articulate the value of Intraoperative Neurophysiological Monitoring (IONM) to all stakeholders.
- Promote the development of a community that welcomes all who are directly involved with IONM.

ASNMM Promotes these Goals By:

- Fostering the growth and stature of neurophysiological monitoring as a profession.
- Providing a forum for education and dissemination of knowledge in the field.
- Developing quality standards for practice and training.
- Building partnerships and coalitions with allied professionals.

Quality Neurophysiological Monitoring Benefits Patient Outcomes

American Society of
Neurophysiological
Monitoring

Our membership is a diverse of professionals from most health care provider professions. We are thought leaders and serve in many professional leadership roles, including leadership in not only ASNMM, but also ISIN, AAN, ACNS, ASET and CAAHEP-CoA.

Who Do We Represent?

We represent the complete IONM community - this includes technologists, neurophysiologists, physicians and equivalent, PhD's, and the the technical community, including but not limited to vendors and equipment manufacturers.

The **ASNMM** community comes from both academic centers and private industry. The majority of our membership comes from the private community. The credentials of our members are as follows:

- **CNIM** (technologist certification)
- **DABNM** (Non-physician professionals, including but not limited to Ph.D. and certified professionals)
- **MD** (neurologists, anesthesiologists, surgeons, psychiatrists)
- **R.EEGT** (specialized certification in electroencephalography for technologists)
- **REP T** (special certification for evoked potential technologists)
- **CCC-A** (audiology certification)
- **RN/LPN** (Nursing)
- **DO**
- **MS/MA** trained professionals
- **PhD and ScD**
- **DC**
- **AuD**
- **MBA**
- **JD**
- **MSN**

Total Members

1000

Membership Types

Full, Student, Fellows, and Emeritus

Where Do Our Members Live?

While ASNMM represents members from around the globe, the majority of our members are American.

What Types of Educational Programming Do We Offer and to Whom?

ASNMM offers members and non-members three in person meetings each year. Our Annual Symposium is the flagship event, which is complimented by two regional educational meetings. ASNMM also offers webinars to our members and non-members. Our webinars focus on cutting edge, key educational topics.
