I. Vision & Mission:

The Society serves as the leading organization for the field of interventional neurophysiological assessment and monitoring. Quality neurophysiological monitoring benefits patient outcomes. The Society:

- ⇒ Fosters the growth and stature of neurophysiological monitoring as a profession
- ⇒ Represents and advocates within the medical community on behalf of the members
- ⇒ Provides a forum for education and dissemination of knowledge in the field
- ⇒ Develops quality standards for practice and training
- ⇒ Promotes the highest standards of neurophysiological monitoring through research
- ⇒ Builds partnerships and coalitions with allied professionals

II. Intent & Overview

The function of the ASNM Regional Symposia program committee is to provide both a review of the basic neurophysiologic technology and methods in addition to a forum for presentation of cutting edge concepts in the field.

III. Objectives

After participating in this program, the participants should be able to:

- ⇒ Discuss the basic principles for conducting and interpreting intraoperative neurophysiologic monitoring (IONM)
- ⇒ Identify the basic neuroanatomy & neurophysiology relevant to IONM
- ⇒ Orient to principles of neurosurgical monitoring techniques & philosophies
- ⇒ Develop an understanding of the basic aspects related to the business of IOM
- ⇒ Develop an understanding of the elements for clinical decision making for IOM

IV. Who Should Attend

This symposium is designed for all monitorists, to include electrophysiologists from neurophysiologic backgrounds, nurses, electroneurodiagnostic technologists, audiologists and other practitioners involved with patients where neurophysiologic monitoring is used and who wish to expand their knowledge. This symposium is also designed for neurological, orthopedic, and ENT surgeons who utilize IOM as part of their routine practice or who are interested in learning more about IOM technique.

Certificates of Attendance will be given for application to the Continuing Education Board of American Speech-Language-Hearing Association (ASHA) for CEU's.

ASET ACE CREDITS

ASET "ACE" CREDITS HAVE BEEN APPLIED FOR. Such crediting, however, should not be construed by program participants as an endorsement of any type of instrument or supplies mentioned or involved in these presentations.
